## PRICE SHEET

**FROM RUSTIC BARNES TO WHITE SANDY BEACHES,  
CAPTURING LIFE'S FINER MOMENTS ONE CLICK AT A TIME!**

Let's just cut to the chase. What makes me stand out among the vast sea of other wedding photographers is how I treat you and your wedding guests. Yes, I know my camera like the back of my hand, of course I research poses and trends on a daily basis, but, when you get right down to it, you need to be assured that I am going to enhance your wedding day and make you and your guests feel comfortable in front of the lens. How do I do this you might ask... I am a people person. I am kind, I care, I'm respectful and I pick up on the smallest of details because I am determined to do whatever it takes to make you smile throughout your entire day. You might see me climbing a tree, or crawling on the ground just to get that perfect shot. I will bend over backwards just to make sure that you are happy and provide you with photographs that are creative, unique and timeless so that you can pass them on for generations to come.
